

Resonant Microsensors

University Enterprise Training Partnership project

Thomas Fabula, Hans-Joachim Wagner

Institute of Microstructure and Information Technology (IMIT),
Villingen-Schwenningen, Germany

Albert Prak

MESA Research Institute,
University of Twente, Enschede, the Netherlands

Contents

1	Introduction to MEMS and resonant sensors	1.1
1.1	Micro-electro-mechanical-systems	1.1
1.2	Resonant sensors	1.3
1.3	Scope of this course	1.6
	References	1.8
(...)		
4	Demonstrations	4.1
4.1	Resonant sensor devices	4.1
4.2	Finite-Element-Method	4.3
4.3	Numerical modeling of resonant sensors	4.4
4.3.1	Load dependent frequency change	4.4
4.3.2	Thermal behaviour of resonant sensors	4.6
4.3.3	Optimization of a 'beam-on-diaphragm' pressure sensor	4.7
4.4	PC-based layout and FEA demonstrations	4.10
4.5	ANSYS program source listings	4.11
	References	4.19
